## THE HISTORY OF EARTH DAY

Initiated on April 22, 1970, Earth Day marked the beginning of the modern environmental movement. Mobilizing 20 million Americans—10% of the U.S. population at the time—it sparked a global awareness and call to action for the protection of our planet.

## OUR MISSION

In an era marked by climate extremes—from devastating Nor'easters to unexpected flooding on sunny days—our resolve has never been more tested. Earth Day Boston stands at the forefront, championing the construction of resilient communities prepared for today's challenges and preventing tomorrow's climate catastrophe.

# JOIN US!

Earth Day Boston invites you to stand with us in transforming our community through knowledge, action, and advocacy.
